EWI NAMED TO BEST EMPLOYERS IN OHIO

May 18, 2011 (Columbus, Ohio) – EWI was named to Best Employers in Ohio for 2011 by the Society of Human Resource Management (SHRM) - Ohio State Council.

The manufacturing innovations leader was among many publicly and privately held companies and nonprofits from across Ohio that competed in the two-part process to determine the state's best employers. The company's workplace policies, practices, philosophy, systems, and demographics were first evaluated, followed by an extensive employee survey about the employee experience.

Mark Matson, EWI's Vice President of Human Resources, says "As a consulting firm, our people *are* the value we bring to our members and clients. For that reason, creating a culture that attracts and retains the right people has been one of our strategic priorities. It is very encouraging to learn from the survey process that our hard work is paying off and that our Associates, who have high standards, regard EWI as a good place to work."
