

# EWI® 2015

Shaping the future of manufacturing

40

new member companies  
from across the  
manufacturing industry

Our **Buffalo**  
facility adds  
more than

**\$6 million**

of capital equipment to support  
innovation in additive manufacturing and  
flexible automation

EWI's acclaimed library services team  
delivers

740 literature searches and

**5,986**

article retrievals.

**3,528**

guests engaged in 60 EWI  
classes, workshops, meetings,  
and  
conferences.

We are recognized  
as one of

**Central Ohio's  
Healthiest  
Employers**

and for two years  
running have received the American  
Heart Association designation as a  
"Fit-Friendly" workplace.

EWI Associates  
published  
22 technical papers  
and gave

**88**

presentations  
across the USA,  
South America,  
Asia, and  
Europe.

EWI start up  
**Acoustech**  
completes beta-testing with

**130,000**

production-quality parts.

acoustech®  
SYSTEMS

Expanding customer service  
through not one, not two, but

three EWI  
lab facilities

For the 5th time,  
EWI is named one of Ohio's Top

**10 Best  
Employers**

by the Ohio Chamber of Commerce and  
the Society for  
Human Resource Management.

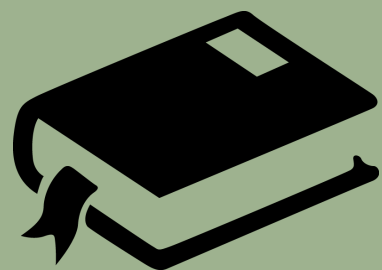

**323**

participants  
attended  
EWI short  
courses,  
workshops, and  
technical webinars.

EWI founder and  
principal engineer  
Karl Graff  
publishes

**Power Ultrasonics,**

the first  
comprehensive  
compendium of  
leading  
ultrasonics  
research.

Founded by EWI,  
The Ohio State University, and  
University of Michigan,

**LIFT**  
opens in Detroit.

LIGHTWEIGHT INNOVATIONS  
FOR TOMORROW

A new and  
improved

**Member  
Central**

website  
- a valued and reliable resource  
for EWI members.

EWI spinout  
Fabrisonic wins the  
**Boeing  
Performance  
Excellence Award**

in recognition of superior  
performance and  
outstanding service for the second  
year in a row.

The  
**EWI Forming Center**
