

EWI DESIGN REVIEWS

Your challenge, our team— together in one room

EWI members can bring us their designs, concepts, and manufacturing challenges to be matched with a team of top-notch engineers and technicians.

Each review consists of a face-to-face, 4-hour consultation with engineering experts who are best suited to discuss your specific needs and provide confidential recommendations. We can objectively help you with the following:

Manufacturing
process options

Material
selection

Design for “x”

Process-
driven design
requirements

... And more

Here's what our clients say about us:

WE PREPARE TO HELP YOU SUCCEED

“EWI does an excellent job of documentation and setting up meetings, either doing them over the phone or through a visit. They're very accommodating. They bring the right knowledge and team members to explain the information, or provide documentation. They do an excellent job.”

-Advanced Manufacturing Engineer, heavy equipment manufacturer

DESIGN REVIEWS ARE PART OF THE CONTINUING SUPPORT MEMBERS RECEIVE

“We interacted on a design review and it was quite helpful in understanding the situation. EWI's report and suggestions were very useful. There was lots of continued support as we progressed.”

-Senior Process Technology Engineer, advanced energy technology company

WE LISTEN TO YOUR SPECIFIC NEEDS

“EWI gets the right people in the room. They have a lot of talented people that they can draw knowledge from. They sit down and listen to the voice of the customer.”

-R&D Manager, aerospace products manufacturer

WE DELIVER PRODUCTIVE OUTCOMES

“We present the design to them, they bring the right people to meetings for discussion, and then we look at the design and the outcome is productive.”

-R&D Engineering Manager, rail products producer

DESIGN REVIEWS ARE A TEAM EFFORT

“I would have thought that even one person would have been a good design review. EWI provided five highly qualified technical staff for a day to review our design.”

-Senior Materials Engineer, automotive tier one supplier
