VIRTUAL

Feb 4th, 2021 10:00 am – 2:30 pm EST

AMC General Session Meeting

10:00 AM **Welcome & Housekeeping**

Mark Barfoot - EWI

10:10 AM **Announcement of selected AMC 2021 projects**

Mark Barfoot - EWI

10:15 AM **SLM – 12 laser Machine & Tour – live from Germany**

Shawn Kelly, SLM

Abstract: SLM will provide a tour of their facility in Germany and an overview of their new 12 laser machine that was launched at Formnext.

11:15 AM **Tour of “Materials Solutions – a Siemens Energy Business” – live from UK**

Trevor Illston and Quan Lac

Abstract: Trevor Illston and Quan Lac will provide us a tour of the Materials Solutions AM Factory in the UK, close to Birmingham. This 4.500 sqm state-of-the-art facility provides space for ~50 industrial printers and is currently producing serial production parts for Siemens Energy and for Aerospace and Auto customers. The facility is Aerospace AS9100 and Nadcap certified.

12:00 PM **BREAK**

12:30 PM **Tour & Presentation from Rapidia – live from Vancouver, BC, Canada**

Dan Gelbart , Rapidia

Abstract: Rapidia will give an overview of their machine and the technology as well as showcase some sample parts that have been produced with their technology. They will also include a short tour of their facility.

1:15 PM

Corrosion of AM parts – live from Columbus, Ohio, USA.
Joshua James – EWI

Abstract: Josh will provide an overview of the challenges and potential solutions for overcoming corrosion on AM build parts.

1:45 PM

Tour & Presentation from Meltio – live from Las Vegas, NV, USA

Yash Bandari, Meltio

Abstract: Yash will provide an overview of the Meltio process and provide us a tour of their facility in Las Vegas.

2:30 PM

Wrap Up and Closing
Mark Barfoot, EWI
