

You're Invited

Innovating Industry Together: Tele-manufacturing

Location:

Buffalo Manufacturing Works
683 Northland Ave., Door E
Buffalo, NY 14211

RSVP here

Join EWI experts on June 4th at our Buffalo Manufacturing Works laboratory for an exclusive technology demonstration highlighting the latest in **Tele-manufacturing**. Experience its evolution through a brief presentation, participate in hands-on demos, and engage with our expert engineers to discuss its future.

Also, explore additional breakthrough technologies developed at EWI, including **Polymer-to-metal Welding**, **MF-FC Spot Welding**, and **Resistance-based Sintering**.

Light appetizers and refreshments will be served..
